01

About This Policy

This Privacy Policy describes how **Pandav** (“we,” “us,” or “our”) handles information in connection with the mobile game **Sky Bubble Burst** (Android package: `com.pandav.skybubbleburst`), available on Google Play.

By downloading, installing, or playing Sky Bubble Burst, you acknowledge that you have read and understood this Privacy Policy. If you do not agree, please uninstall the app.

This policy was prepared to comply with:

- Google Play Developer Program Policies (User Data Policy)
- Google Play Families Policy
- Google AdMob Publisher Policies
- EU General Data Protection Regulation (GDPR)
- California Consumer Privacy Act (CCPA / CPRA)
- Children's Online Privacy Protection Act (COPPA)

02

Information We Collect

- **TRANSPARENCY NOTE:** The following information accurately reflects data handling as implemented in the app's source code. No data is transmitted to our servers.

2.1 Data Stored Locally on Your Device

Sky Bubble Burst stores the following data exclusively on your device using `get_storage`, a local key-value storage library. **This data never leaves your device and is never transmitted to us or any third party.**

Data Type	Purpose	Transmitted?	Deletable?
Game Scores	Track high scores and gameplay history	No – Local Only	Yes – Clear App Data
Coins	In-game virtual currency balance	No – Local Only	Yes – Clear App Data
Current Level	Track player progression	No – Local Only	Yes – Clear App Data
Unlocked Bubble Styles	Remember unlocked cosmetic items	No – Local Only	Yes – Clear App Data
Selected Style	Remember chosen visual theme	No – Local Only	Yes – Clear App Data
Unlocked Backgrounds	Remember unlocked game backgrounds	No – Local Only	Yes – Clear App Data
Selected Background	Remember chosen background	No – Local Only	Yes – Clear App Data
Awards Count	Track earned in-game awards/trophies	No – Local Only	Yes – Clear App Data

Data Type	Purpose	Transmitted?	Deletable?
Gifted Hearts / Coins / Awards	Track lifetime rewards earned via ad viewing	No – Local Only	Yes – Clear App Data

2.2 Data Collected by Third-Party SDKs

While we do not personally collect data, the Google AdMob advertising SDK integrated into the app may collect certain technical and device information as described in Section 4.

2.3 Data We Do NOT Collect

- ✗ Name, email address, or any contact information
- ✗ Phone number or device contacts
- ✗ Location data (GPS, network-based, or otherwise)
- ✗ Camera or microphone data
- ✗ Photos, files, or media from your device
- ✗ Biometric data
- ✗ Financial information or payment data
- ✗ Social media account information
- ✗ Health or fitness data
- ✗ User account credentials (no login exists)

2.4 Android Permissions

Permission	Required By	Purpose
INTERNET	Google AdMob	Load and display advertisements
ACCESS_NETWORK_STATE	Google AdMob	Check network connectivity before making ad requests

03

How We Use Information

The locally stored data is used **exclusively** to:

- **Provide core gameplay** — Restore your progress when you reopen the app.
- **Display achievements** — Show high scores and award history.
- **Personalise cosmetics** — Remember your chosen bubble style and background.
- **Manage in-game rewards** — Track coins and awards earned by watching ads.

We do NOT use information for:

- ✗ Marketing or advertising profiling
- ✗ Behavioural tracking or analytics
- ✗ Sale or transfer to data brokers
- ✗ Any purpose beyond operating the game

04

Advertising (Google AdMob)

- **GOOGLE PLAY ADVERTISING DISCLOSURE:** This app contains advertisements. The following section provides the disclosures required by Google Play's Advertising Policy and AdMob Publisher Policies.

4.1 Ad Types Displayed

Sky Bubble Burst displays the following ad formats via Google AdMob:

- **Banner Ads** — displayed persistently within the game interface.
- **Interstitial Ads** — full-screen ads shown at natural transition points (e.g., level completion). A minimum **60-second frequency cap** is enforced between auto-triggered interstitials.

4.2 Non-Personalized Ads Configuration

Sky Bubble Burst is configured to request **non-personalized ads** from AdMob (`nonPersonalizedAds: true`). This means AdMob does not use your personal data or behavioural profile to select ads.

Ad content is filtered to a **General (G) audience rating** (`MaxAdContentRating.g`), ensuring only family-appropriate advertisements are served.

4.3 What AdMob May Collect

- Device identifiers (e.g., Android Advertising ID / GAID)
- IP address (used for approximate geolocation and fraud prevention)
- Device type, model, OS version
- App identifiers and interaction data (e.g., ad clicks, impressions)
- Network and carrier information

This data is collected and processed by Google, not by us. Google's use of this data is governed by the Google Privacy Policy (policies.google.com/privacy).

4.4 AdMob App ID

Our AdMob App ID is `ca-app-pub-8536272432230680~9983882940`. This identifier is registered with Google and associates ad requests with our application.

4.5 Opting Out of Interest-Based Advertising

1. Open Settings on your Android device.
2. Go to Privacy → Ads.
3. Select "Delete advertising ID" or enable "Opt out of Ads Personalisation".

05

Third-Party Services

Service / SDK	Provider	Purpose	Privacy Policy
Google AdMob	Google LLC	Banner + interstitial ads	policies.google.com/privacy
apsl_admob_ads_flutter	APSL	Flutter wrapper – Google Mobile Ads	Governed by Google AdMob policy
get_storage	GetX / OSS	Local device storage – no transfer	No external data transfer
audioplayers	Blue Fire	Play bubble pop sound effects	No data collection
url_launcher	Flutter/Google	Open URLs in device browser	No data collection
flutter_sizer	Open-source	Responsive UI sizing utility	No data collection

- **NO ANALYTICS SDK:** This app does not integrate Firebase Analytics, Crashlytics, Amplitude, Mixpanel, or any other analytics or crash-reporting service. No behavioural telemetry is collected.

- **NO PAYMENT SDK:** This app does not integrate any payment processing service. No in-app purchases are available. All in-game rewards are earned by watching ads.

06

Data Retention

All game data is stored locally on your device using `get_storage` and persists as long as the app is installed. Data is automatically removed when you **uninstall the app** or **clear app data** via Android Settings → Apps → Sky Bubble Burst → Clear Data.

Because we do not receive or store any data on our servers, we have no server-side data to manage. Data retained by Google AdMob is subject to Google's data retention practices.

07

Data Security

All game data resides only on your device and is protected by Android's application sandboxing model. Third-party applications cannot access this data without root-level device access.

The only network traffic generated by the app relates to AdMob ad requests, which are handled by the Google Mobile Ads SDK using industry-standard **HTTPS encryption**.

08

Children's Privacy

- **FAMILIES POLICY NOTE:** Sky Bubble Burst is described as a 'Kids Game.' This section reflects our commitment to children's privacy and our AdMob configuration for general audiences.

Sky Bubble Burst is a family-friendly bubble-popping game suitable for all ages, including children. We have implemented the following protections:

8.1 No Personal Data Collection from Children

We do not knowingly collect any personal information from children under 13 (COPPA) or under 16 (GDPR) — or from any user, regardless of age. No account creation, name, email, or contact information is ever requested.

8.2 Child-Safe Advertising Configuration

- **Maximum ad content rating: G (General)** — only family-appropriate ads are served (MaxAdContentRating.g).
- **Non-personalized ads** — ad serving does not rely on user profiling or targeting.
- `tagForChildDirectedTreatment` and `tagForUnderAgeOfConsent` are set to unspecified.

8.3 Parental Guidance

Parents and guardians with questions about their child's use of Sky Bubble Burst, or who wish to request deletion of locally stored data, may contact us at developerpandav16@gmail.com. Data can also be deleted immediately by clearing the app's data through Android Settings.

09

Your Rights & Choices

- **Delete all local game data** — Android Settings → Apps → Sky Bubble Burst → Clear Data.

- **Uninstall the app** — Removes all locally stored game data from your device.
- **Opt out of ad personalisation** — Via Android device settings (see Section 4.5).
- **Delete AdMob Advertising ID** — Android Settings → Privacy → Ads → Delete advertising ID.

10

International Data Transfers

We do not transfer any personal data internationally because we do not collect personal data. Google AdMob, as a service operated by Google LLC (US), may process data in the United States or other countries where Google maintains data centres. This is subject to Google's Standard Contractual Clauses under GDPR.

11

Data Deletion / Account Deletion

- **GOOGLE PLAY REQUIREMENT:** Google Play requires all apps to provide a data deletion mechanism. The instructions below satisfy this requirement.

Sky Bubble Burst does not have user accounts. All data is stored locally on your device.

To delete all app data immediately:

1. Open Settings on your Android device.
2. Navigate to Apps (or Application Manager).
3. Find and tap Sky Bubble Burst.
4. Tap Storage.
5. Tap Clear Data → Confirm.

This permanently deletes all scores, coins, level progress, unlocked styles, and unlocked backgrounds stored by the app. Alternatively, uninstalling the app removes all locally stored data automatically.

12

GDPR Rights (EEA / UK Residents)

If you are located in the European Economic Area (EEA) or the United Kingdom, you have rights under the GDPR and UK GDPR. Because we do not collect personal data from you directly, most GDPR rights apply primarily in the context of data processed by Google AdMob.

Right	Description
Right of Access	Request a copy of personal data held about you.
Right to Rectification	Request correction of inaccurate data.
Right to Erasure	Request deletion of your personal data.
Right to Restrict Processing	Request limitation of how data is processed.
Right to Data Portability	Receive your data in a structured, machine-readable format.
Right to Object	Object to processing based on legitimate interests.
Withdraw Consent	Withdraw consent at any time.

Legal Basis for Processing: Local game data is processed on the basis of *legitimate interests* (providing the core gaming service). AdMob advertising is processed on the basis of *legitimate interests* (non-personalized ad serving) and, where applicable, *consent*.

13

CCPA Rights (California Residents)

If you are a California resident, the CCPA and CPRA provide specific rights regarding personal information. **We do not sell personal information.**

- **Right to Know** — What personal information is collected, used, and disclosed.
- **Right to Delete** — Request deletion of personal information.
- **Right to Opt-Out of Sale** — We do not sell personal data; not applicable.
- **Right to Non-Discrimination** — No discrimination for exercising CCPA rights.

14

Contact Us

For any questions, concerns, or requests regarding this Privacy Policy:

Developer / Data Controller	Pandav
Email	developerpandav16@gmail.com
App Name	Sky Bubble Burst
Package Name	com.pandav.skybubbleburst
Platform	Google Play (Android)
Response Time	Within 30 days of verified request

15

Policy Updates

We may update this Privacy Policy from time to time to reflect changes in our practices, technology, or legal requirements. When we make material changes, we will update the **Last Updated** date at the top of this policy. Continued use of Sky Bubble Burst after any changes constitutes acceptance of the revised policy. If you do not agree with the revised policy, please uninstall the app.

16

Compliance Audit Summary

- **DEVELOPER NOTE:** This section is for internal review and Google Play submission preparation. Consider removing it from the public-facing version once all items resolved.

Confirmed Compliant

✓	No personal data collected Verified in source code – only local get_storage used; no server calls.
✓	AdMob fully disclosed Ad types, App ID, and data collection practices disclosed in Section 4.
✓	Non-personalized ads configured nonPersonalizedAds: true confirmed in ad_service.dart.
✓	G-rated ad content filter applied MaxAdContentRating.g set in AdMob initialization.
✓	No analytics SDK present No Firebase, Crashlytics, or behavioural analytics confirmed in codebase.
✓	No payment SDK present No in-app purchases — no financial data collected.
✓	Data deletion mechanism described Clear Android Settings instructions provided in Section 11.
✓	Contact information provided Developer email disclosed — required by Google Play and GDPR.

Action Items Requiring Developer Attention

!	AdMob test IDs in production code ads_id_manager.dart uses Google test Ad IDs. Uncomment real IDs before publishing. Using test IDs in production violates AdMob policy.
!	Families Policy: child-directed treatment tag If primary audience includes children under 13, set tagForChildDirectedTreatment to TagForChildDirectedTreatment.yes in ad_service.dart.
!	Privacy Policy URL in Google Play Console Host this PDF/HTML at a stable public URL and enter it in Play Console → App Content → Privacy Policy before submission.
!	GDPR consent mechanism [REQUIRES VERIFICATION] If distributed in EEA, consider implementing Google's User Messaging Platform (UMP) SDK for a GDPR consent dialog on first launch for EEA users.
!	Physical address [REQUIRES VERIFICATION] Some jurisdictions may require a physical developer address in the policy.
